Election/Restrictions

This Office action is in response to the communications filed 2-1-11 and 1-18-11.

Claims 23, 27-30, 34-38, 44 and 45 are pending in the instant application.

Claims 23, 27-30, 44 are under examination on their merits. Claims 34-38 and 45 have been withdrawn as being drawn to non-elected inventions.

Applicant's election of Group I, claims 23-34 and 38-45, and SEQ ID NO. 30, filed 11-24-08 is acknowledged. However, pursuant to 37 C.F.R. 1.142(a), an examiner's action on the merits of the amendments, arguments and declaration filed by applicant on 1-18-11, insofar as they pertain to the elected invention, is hereby deferred until an election has been made (See MPEP 810.02 and 811).

- Applicants are additionally required to elect a single SEQ ID No. with the elected Group (see, *e.g.*, claims 23, 27, 30, and 44).

Species Election Requirement

Applicant is required under 35 U.S.C. 121 to elect a single disclosed species for prosecution on the merits to which the claims shall be restricted if no generic claim is finally held to be allowable. Thus, Applicants must elect a single SEQ ID NO. from claims 23, 27, 30, 44.

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which depend from or otherwise require all the limitations of an allowable generic claim as provided by 37 CFR 1.141. If claims are added after

the election, applicant must indicate which are readable upon the elected species.

MPEP § 809.02(a).

Applicant is advised that the reply to this requirement to be complete must include (i) an election of a species to be examined even though the requirement may be traversed (37 CFR 1.143) **and (ii) identification of the claims encompassing the elected species**, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered nonresponsive unless accompanied by an election.

The election of the species may be made with or without traverse. To preserve a right to petition, the election must be made with traverse. If the reply does not distinctly and specifically point out supposed errors in the election of species requirement, the election shall be treated as an election without traverse. Traversal must be presented at the time of election in order to be considered timely. Failure to timely traverse the requirement will result in the loss of right to petition under 37 CFR 1.144. If claims are added after the election, applicant must indicate which of these claims are readable on the elected species.

Should applicant traverse on the ground that the species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the species unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C. 103(a) of the other species.

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which depend from or otherwise require all the limitations of an allowable generic claim as provided by 37 CFR 1.141.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
